Reference:	BETATEC Bonobo - 02
Company Name:	Bonobo.ai (http://www.bonobo.ai)
Company Type: (Startup/Mature/...)	Startup
Location: (full address)	28 Ahad Ha'am, Tel Aviv
Stay Duration: (min 2, max 6 months)	4-6 months

Company Description:

Bonobo.ai is an AI startup focusing on extracting meaningful insights from conversational data. We analyze conversations between humans and machines and make them personal, smart and data-driven.

Job Description and Tasks:

We are looking for a curious and independent undergraduate/graduate student who is passionate about AI and new technologies, willing to work in a startup pace and open to experiment with a wide set of skills and responsibilities.

Tasks will include: Programming in Python

Optional: Machine Learning and NLP Research (developers who do not have any background in AI related technologies but would like to develop their skills in that field are more than welcome to apply)

Hours of work will be from Sunday to Thursday from 10:00 to 18:30

Essential Requirements:

Fluent level of written and spoken English, additional languages are an advantage

Studying for a related Bachelor degree - an advantage

Fast learner

Quick understanding of processes

Able to understand complex information

Ability to carry out analysis to a detailed level

Good communication skills

Good computer skills

Organized, persistent and determined

Remuneration Details:

We will cover lunch.

We are happy to assist with finding accommodation.
