Reference: ArcusTeam – Stack Developer
Company Name: ArcusTeam
Company Type: (Startup/Mature/….) Cyber security startup
Location: (full address) Herzliya
Duration of stay: (min 2, max 6 months) Min 3 months

Company Description:

ArcusTeam is an up and coming cybersecurity company that aims to secure IoT devices, such as your smartwatch, google home, or even printer, using its very own unique platform. At ArcusTeam you will be given the opportunity to get a first-hand look into the “start-up nation”, and what it means to work in a constantly evolving and fast-paced environment. Being surrounded by a young and vibrant community of thinkers pushes everyone to reach goals they never thought possible. Being a part of ArcusTeam means more than just an internship, it means laying down the foundations for a safer tomorrow.

Location: In the heart of Herzliya Pituach, you will be only a 15-minute walk to the beautiful beaches of Israel!

Job Description and Tasks:

The junior full stack developer intern will work closely with our senior full stack developer to build the platform’s user interface.

Essential Requirements:

React
Javascript
NodeJS
HTML

CSS

Experience in developing full-stack applications

Ability to learn quickly and adapt to change

Desire to work in a fast-paced, growing, deadline-driven, startup-up environment

Independent person, who is able to work alone or as part of a team.

Remuneration Details:

ArcusTeam will provide the intern with a 10bis card, a pre-loaded card, loaded with ₪50 per day to use for lunch at a multitude of delicious restaurants in the area, as well as restaurants outside of Herzliya Pituach whom accept the card as a form of payment. In addition, ArcusTeam will cover the transportation fare for the intern.
