Company Description:

SportsArena is a cross platform app that enables and provides anyone the freedom to tailor and customize their own Sports information, customized to them. We provide live scores, news from the world's media, video highlights, statistics, fixtures, standings, tweets and a lot more. 365Scores' workplace is the perfect place to continue our goal, where we harness the love of sports and technology with an exciting multi-cultural vibe to continue to build and create our vision.

Location: Tel Aviv
Company size: 50-100 employees

Job Description and Tasks:
Front-End Developer

Responsibilities:
- Responsible for development of new highly-responsive, web-based user interface
- Develop new components and features for 365scores.com (frontend)
- Develop a flexible and well-structured front-end architecture, along with the APIs to support it
- Profile and improve our front-end performance
- Translating designs and wireframes into high-quality code
Requirements:

- 2+ years of experience working with a Javascript framework, preferably React
- In-depth understanding of Javascript, the DOM, and relevant concepts
- Experience working with HTML and CSS
- Proficiency with browser-based debugging and performance testing
- Experience using Git

Remuneration Details:

Transportation expenses of the intern will be covered. The intern will take part in all of the company's social activities (Happy hours, parties, outdoor fun activities)
